

6215 Using CDX effectively (Webinar)

Objective

You know the background and goals of the Compliance Data Exchange System (CDX). As a part of the supply chain, you understand your responsibility for the accuracy of your data. You are familiar with the application and use of the IMDS and you are able to use its most important functions. You can create, send, and administrate material data sheets (MDS) and create tree structures. You are familiar with search mechanisms to find correct data sheets and you know how to integrate them into your tree structure. You can also make an analysis of your data and are capable to use and administer the CDX system safely.

Seminar content

- ☐ Introduction into CDX
 - History and background of CDX
 - Model IMDS
 - Registration in CDX und password reset
 - Terms of Use
 - Data flow, data visibility and security strategy
