1 Supplier Onboarding in CDX

The Compliance Data Exchange (CDX) system provided by DXC Technology supports you with collection, maintenance and analysis of material data along your supply chain.

In order to use CDX efficiently however, you will need the support of your suppliers. Onboarding your suppliers is often one of the biggest challenges in the process, but it is important for all suppliers to participate and provide their data in the CDX system.

We take care of the onboarding process for you.

2 Prerequisites for Supplier Onboarding

1. A list that includes current and complete contact information of CDX contact person at your supplier in predefined CDX Excel format for all suppliers to be included
2. Contact at your company for supplier questions (Purchasing) –if necessary this might include more than one contact persons for a given project– who is at the disposal of compliance professional

3 Details on Supplier Onboarding Services

3.1 Supplier identification

You specify which suppliers are to be registered in CDX and provide us with a list of contacts and contact details in predefined CDX Excel format.

3.2 Registration of Suppliers

Based on their company-specific requirements for registration suppliers will be asked to register in CDX using the bulk mailing option.

Supplier registration service included one request and two reminders. Should these fail, we will inform the contact person at your company you specified and further steps will be discussed.

3.3 Conditions

Condition for the provision of all services described in the document at hand is the existence of a valid CDX license. The services are linked (<https://public.cdssystem.com/en/web/cdx/ordering>) to the license purchased with the respective bundle. Any transfer of services to another license is excluded.
