CDX – New Price Structure – License Fee according to Number of Registered Suppliers

With the CDX Release 5.3, DCX Technology offers a new licensing model for material data management in the CDX system. The new pricing structure is more transparent for companies, as it is now based on the **number of registered suppliers** of your company, and no longer on your MDS volumes, which means, the number of data sheets is unlimited.

DXC Technology is optimizing its pricing structure based on customer feedback. The five new licensing models are geared directly to the size, and needs of a company.

The **use of the basic functions** allows companies to:

- Create data sheets and send them to your customers
- Become familiar with the CDX and test the functionality
- Import own IPC1752 and IEC62474 Reports

An entry license allows companies with up to 10 registered suppliers given to exchange data sheets within their supply chain. With the basic function to "Send", and the additional functions to "Accept / Reject MDSs", the communication in both directions is guaranteed. If further functionality is needed, the next higher license may be purchased.

Small, medium and large licenses allow companies to purchase all available CDX functionalities with their license.

For all licenses applies:

- Each license is valid for 12 months within the boundary of licensed suppliers
- The number of received data sheets per supplier is not limited
- The number of received versions (updates) per data sheet is not limited

Please refer to the chart below as a guide which functionality is enclosed in each license:

License	Number of registered suppliers	Price per year	Functionality
Entry license	10	2,000 EUR	Basic Functions plus Accept and Reject MDS
Small companies	100	13,500 EUR	Basic Functions plus - Accept / Reject MDS - Export of lists via MS Excel - Export of MDS via IPC1752A or IEC62474 format - Administration of Company Specific Basic Substance Lists and Regulations - Reporting Functionality - Provision of CDX Web Service Interface (CDX WSI)
Mid-size companies	250	26,500 EUR	
Big companies	500	42,500 EUR	

For companies with **more than 500 suppliers**, the price will be provided upon request.

We offer you the opportunity to test CDX for **30 days free of charge**. The test version includes all functionalities **except** the CDX Web Service and Administration of company specific basic substance lists and regulations.

If you want to order an MDS License or a free Test License, please send an email with information about the required license or your purchase order to cdx-order@dxc.com.

The annual fee for the advanced features of the **CDX CMD Manager** remains unchanged at 500.00 Euros.

For further information please contact the CDX team: cdx-info@dxc.com.
