CDX – Temporary license and additional Supplier Onboarding service

Have you registered in CDX yet? We make it easy for you to learn more about the capabilities of our “Compliance Data eXchange” (CDX) system.

With our **30 days free of charge CDX license**, we offer you the opportunity to build an **automated exchange of material information** within your supply chain and extensively test all functionalities in CDX:

- Use the function "Material Data Sheet (MDS) mass onboarding" to invite your suppliers to communicate directly with you in the CDX system (Inbox / Outbox).
- Accept the received supplier MDSs for further processing in CDX.
- Reject incomplete MDSs and ask your suppliers to correct and resend them.
- Export your MDSs in standard format IPC1752A or IEC62474.
- Test the various export options in CDX.
- Create different types of reports (MD / MDS / SDoC).
- Import your existing MDSs from IMDS into the CDX, if you already have a valid IMDS Advanced Interface (AI) license.

Additional value is provided by the **service packages** that can be purchased for each license model:

- As an optional service package, we offer you a **license including a Supplier Onboarding service**.
- The services for supplier onboarding are provided by our partner **compliance professional**.
- The prerequisites and the services for supplier onboarding can be found in the compliance professional document on our CDX Homepage – Order Information.
